# OFFICIAL DISPATCH

VIA: AIR  
SPECIFY AIR OR SEA POUCH

DISPATCH NO.: MGW-A-202

DATE: 20 May 1949

TO : E 1  
FROM : E 1  
SUBJECT: EDUCATOR Communication Traffic.  
REF : MGW-A-23, KARL-2982 and WASHG, F, C-7141.

1. There is enclosed a copy of a dispatch, MGK-A-8363, addressed to Chief, FBM from E 1 which has just reached my desk and which concerns a problem of immediate importance to the EDUCATOR Project, namely, the continued use of the Heidelberg Signal Center of the KARL Station for cable traffic of EDUCATOR.

2. I have not had an opportunity to look into the facts reported in the attached dispatch but will do so as soon as possible. In the meantime, I am immediately transmitting this report to you in order that you will be in a position to represent our interests when this question is raised in the home office.

3. You will recall that late in December I specifically requested that a code clerk administrative assistant be recruited and attached to EDUCATOR, having in mind that our increased traffic problem would justify such a position. This request was rejected and the present procedure of using HEID facilities established. It was distinctly understood at that time that the present procedure would be continued until such time as EDUCATOR activities would require separate crypto facilities and personnel. It seems to me, therefore, the question to determine is whether we have not, in fact, reached that stage. I will be in a position to give you more details concerning this in a subsequent dispatch.

file. It separated from the file is  
subject to individual examination.
